

Statement of Testament for Laurie Mrva with Achieve Success, LLC:

Laurie was the guest presenter for our annual manager's retreat and did an outstanding and extremely professional job! She met with us several times before the retreat to discuss our goals for the meeting and really made sure she understood what our company and its people are about. She molded her presentation perfectly to fit our time constraints, budget and objectives. Laurie had all the manager's complete a Value and Motivation questionnaire before the retreat and then used the results to help each of us learn how we can work better within our company and with each other. The retreat was an enjoyable and educational experience because of Laurie! She also went a step further and met with each manager individually after the retreat to discuss our value and motivation assessment further. During the individual session she helped me to discover ways to improve my life both professionally and personally. I have put to use some of the suggestions she made and I am already seeing results and improvements in my work and life balance. I would recommend Laurie's services to anyone seeking personal or professional development whether it is individually or for a business. You will not be disappointed!
